

STAGE 2

Specification of stage 2 milk powder for children 400 -800-2000 grams packaging

Follow-on 6 – 12 Months NUTRITIONAL PROPERTIES: in 100 G

Energy	1785 kJ/ 425 kcal		Vitamin A	663 µg
Fat	19 g		Vitamin C	61 mg
of which			Vitamin D3	26 µg
Fatty acids	4,5 g		Vitamin E	9,1 µg
Proteins	16 g		Vitamin K	47 µg
Carbohydrates	45g		Vitamin B1	0,34 mg
of which			Vitamin B2	2,0 mg
Sugar	43 g		Vitamin B6	0,42 mg
Lactose	40 g		Vitamin B12	3,8 µg
Calcium	1131 mg		Folic acid	126 µg
Phosphorus	949 mg		Niacin	2,7 mg
Magnesium	110 mg		Biotyn	14 µg
Sodium	232 mg		Pantothenic acid	3,3 mg
Potassium	1389 mg		Folic acid	126 µg
Iron	7,6 mg			
Iodine	215 µg			
Dietary fiber	8,2 g			
Salt	0,58 g			

Color		Uniform, white-crème
Consistency		Loose powder , uniform
Taste and smell		Typical for pasteurization product, without foreigner after-taste and smell

Ingredients

Skimmed milk powder, lactose (milk) demineralized whey powder, whey protein, concentrate palm oil, potassium hydrogen phosphate, calcium phosphate, calcium carbonate, magnesium citrate, L-ascorbic acid, sodium chloride, ferrous sulfate, tocopherol acetate, calcium pantothenate, cyanocobalamin , folic acid, pyridoxine hydrochloride, nicotinamide, thiamin hydrochloride, potassium iodide
